Turner Exhibits serves architects and designers by developing custom fabrication solutions for museum exhibits, interpretive centers, kinetic architectural features and other exciting projects. Small interdisciplinary teams evaluate solutions, plan, and carry out the production of each project. We seek individuals who value collaboration and who bring a strong work ethic, positive attitude, a love of problem solving and passion for fine craftsmanship.

We hire full and part time employees to fill positions in project management, drafting, installation and fabrication. Fabrication is the heart of our business, so if you are a cabinetmaker, welder, machinist, mechanic, painter or installer and are interested in employment here, please introduce yourself - we want to know you.

To pursue employment at Turner Exhibits, please send your resume via email to resumes@turnerexhibits.com or via fax to (425) 744-1258. No phone calls, please.

If you send an electronic document via e-mail, make sure it can be opened and printed from either Microsoft Word or Adobe Acrobat programs. To apply for a specific opening listed below, please identify the position in your cover letter. General applications are always welcome even when no position opening is listed.

OPEN POSITIONS AT TURNER EXHIBITS:

There are no positions currently being filled.
